Description

A time-bending epic circling the globe, weaving stories across centuries and characters migrating through time, sharing a soul in pursuit of redemption.

Plot Outline

Seamlessly connected although chronologically time shifted, the film spans 500 years weaving six interlocking narratives across a variety of locations and genres, from Melvillean high-seas drama to California film noir and dystopian fantasy. All six stories grippingly weave the novel's themes into focus: the ease with which one group enslaves another, the constant rewriting of the past by those who control the present, and the duality of good and evil that exists within mankind.
